

## 360 MINI WIFI ROUTER USER MANUAL

For this is a nice product produced and sell in china, so the language is Chinese , but do not worry about , it is such an easy thing to use it.

### Step1

Open the mini wifi router and plug it in the USB Slot of a computer which already connect to the internet.

### Step2

If the PC do not Automatic download the driver, you can download the driver youself by click this link below

[http://down.360safe.com/360freeap\\_whole\\_setup\\_2.0.0.1027.exe?\\_=0.17175362608395517.exe](http://down.360safe.com/360freeap_whole_setup_2.0.0.1027.exe?_=0.17175362608395517.exe)

then , click the exe file to install it like the following instructions:

Then, If you do not plug the mini wifi to PC , it will appear

If the wifi router already plug in the PC , this will not appear , and it will automatic create a wifi network. Such as the picture show below:

Then, you can open the wifi of cellphone or tablet , and enter the **wifi name** and **password**, then , you can surf the internet . you can also change the **wifi name** or **password** by click **change**.

**Once a pc install the driver , the next time you need only plug the wifi router , and it will automatic create a network.**

**This is the basic use manual of it , it also have other function, like**

**10TB cloud storage space(not sure if it can be use in your country ),  
and as the upgrade of the driver , it will add new function to this  
wifi router. IF any technical problem, please contact me . I will help  
you enjoy this nice item. thanks**
